27 Gamification

Lets **GAMIFY** your event we basically turn any event or conference or function into a gamified event by using technology and incorporating our amazing and internationally acclaimed APP software. This includes cutting edge photo and video challenges with augmented reality, live messaging and a live scoreboard.

The software also allows for data capture with detailed participant feedback and image recognition capabilities. It can therefore be physical, virtual or remotely presented or participated in - whether in the same location or at different locations across the globe - allowing simultaneous participation and interaction.

We customise the content and software, which can be White Labelled and therefore can be adapted to your own logo or corporate colours. Each participating team has the option to use their own device or we provide Ipad to each team. We include optional social media sharing and there are various themes or existing games to choose from. **PLEASE ENQUIRE**
